

# **My Lab Intern Experience**

Jasmine Groisman

# A little about me...

**Jasmine Groisman**

**B.Sc. Hons Psychology and  
Biochemistry**

**Aspiration: Clinical Neuropsychiatric  
Research**

**Why I volunteered this Summer....**

# The Balci Lab

## Neuroscience

Statistics/  
Comp. Sci.

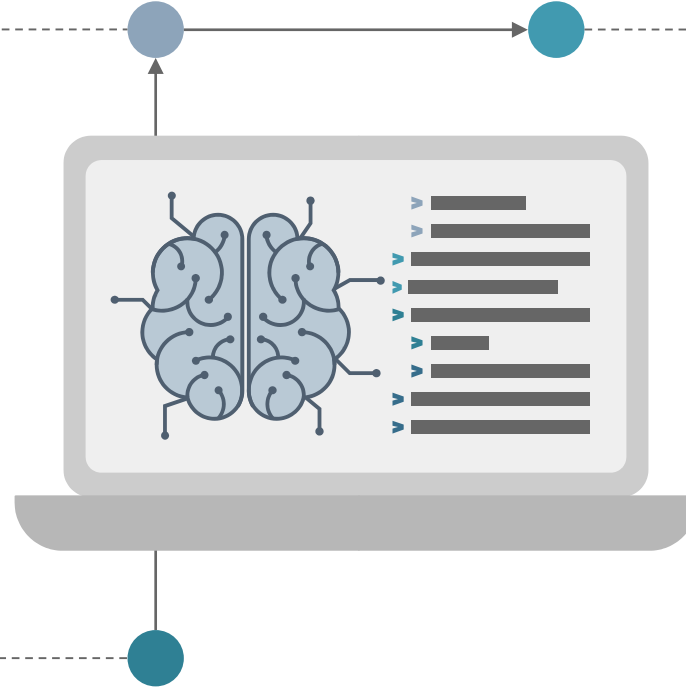

### Interval Timing

MatLab software for coding operant boxes and gathering/analyzing their data

Psychology

### Cognition Studies

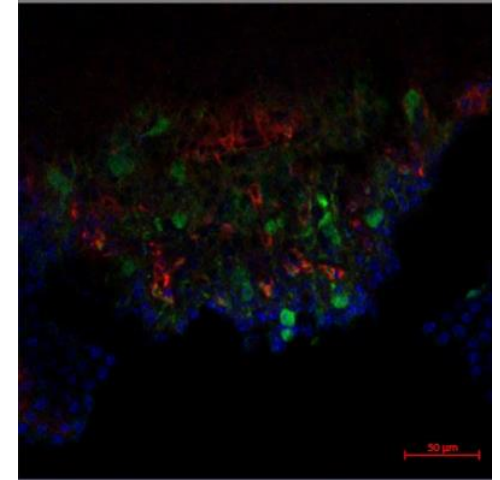

motor control and decision making processes

Biology

### Immunohistochemistry

We use a confocal microscope to find neuronal populations in different brain regions

# My Experience

## Shadowing and Learning

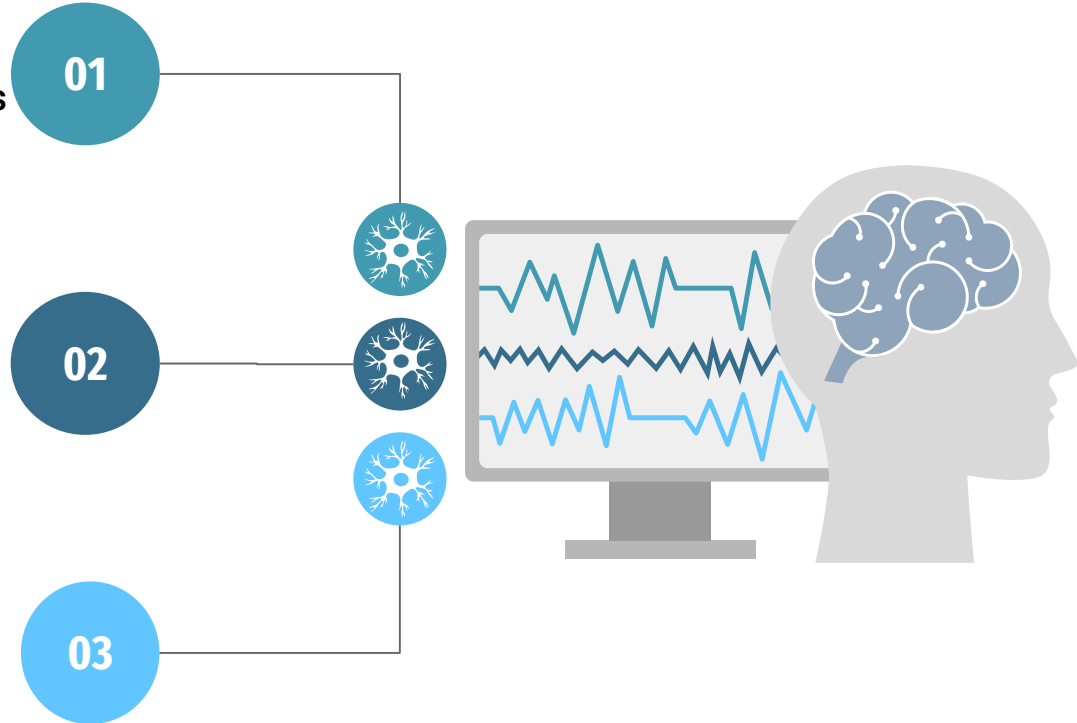

I shadowed graduate student of various levels through their projects and received thorough lessons on the science behind their projects

## Developed MY Certifications

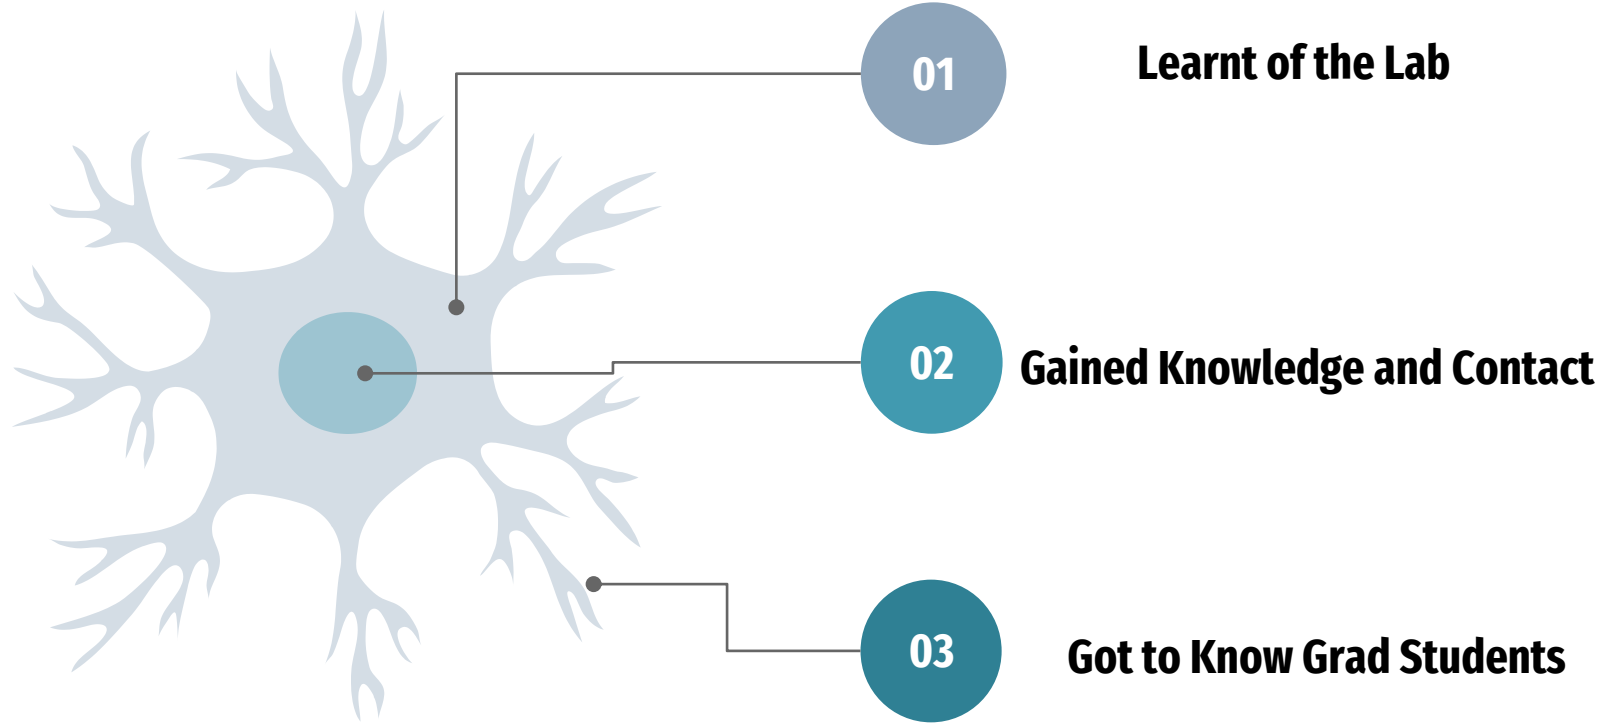

To be able to grow into more responsibilities in the lab I received a large number of new certifications

## Skill Building

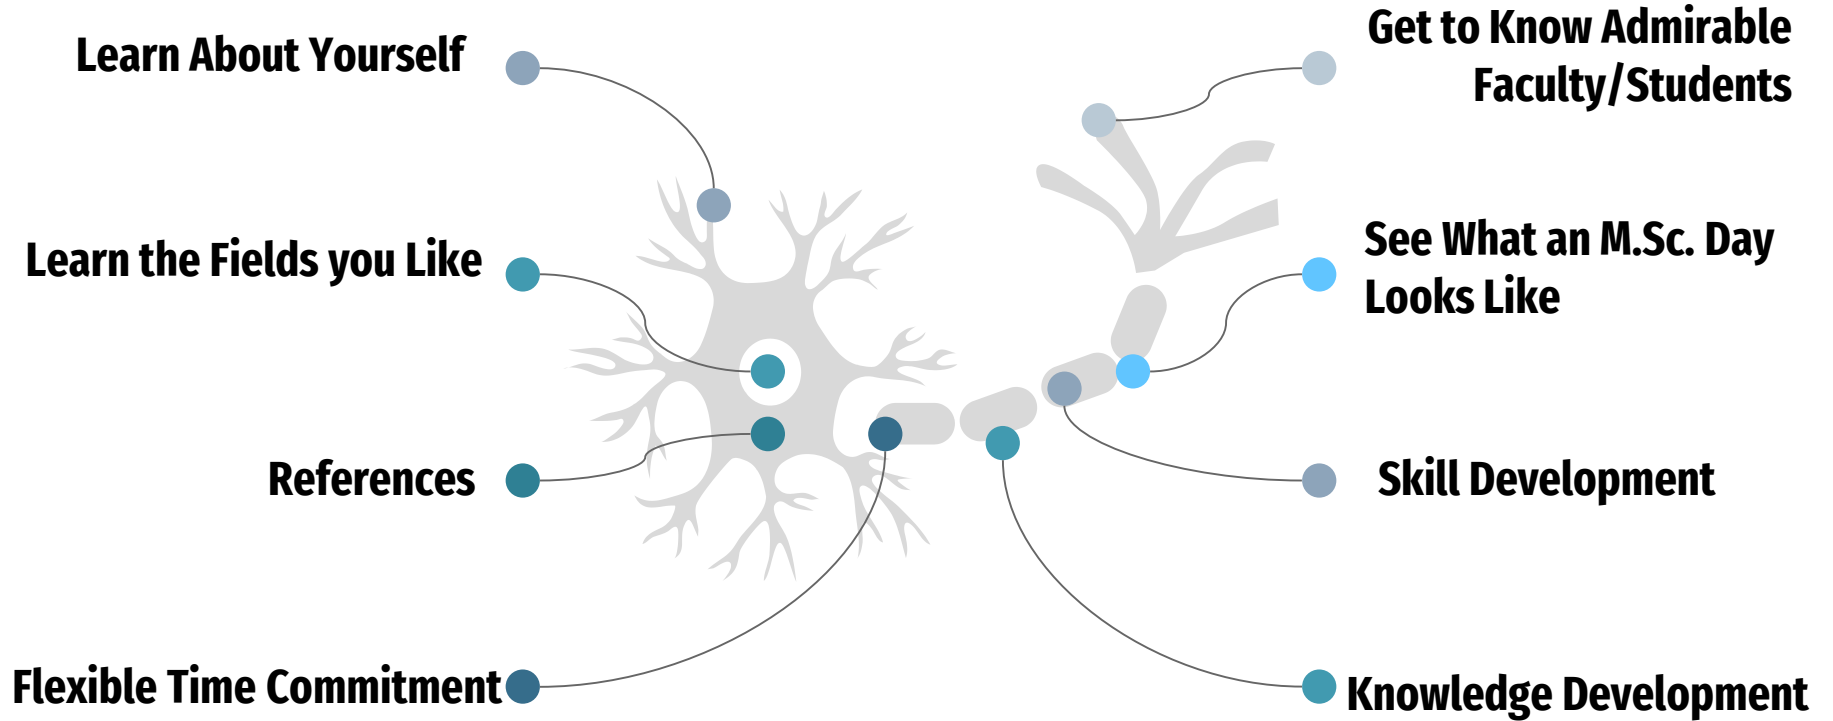

Alongside shadowing, I was able to use different in-vitro techniques for staining, slicing, microscopy, etc.

# How I Got Involved

# Why Volunteer in Research?

# Thank You
